

## Posting a Job on the NREMT Web Site

Looking for a Nationally Registered EMT to fill a position at your organization? You are in the right place! For a small fee, your job opening could be exposed to the 8500+ users who visit [www.nremt.org](http://www.nremt.org) every day.

Frequency	Cost
1-month	\$50
3-months	\$85
12-months	\$250

At the 1-month rate, you have the option to update your ad each month while moving it to the top of the page at that time.

At the 3-month rate, you have the option to update your ad every third month while moving your ad to the top of the page at that time.

At the 12-month rate, your ad must remain the same for the duration of the contract period and as new ads are posted, your ad will move further down the page. If your organization plans on hiring throughout the year, this is a great opportunity to promote your organization and include a link to your organization's web page that lists your most current job opportunities.

Each posting may include a banner, a link to your organization's web site and a 125-word description.

For more information or to place an ad, contact Sherry Mason at [smason@nremt.org](mailto:smason@nremt.org).
