| Policy Name            | <b>Scoring: Psychomotor Examinations</b> |
| Policy Number          | 63.02                                    |
| Approval Required By   | Board of Directors                       |
| Version Number         | 01                                       |
| Version Effective Date | TBD                                      |

### Intent

The skills tested via the psychomotor examinations are scored using analytic scoring rubrics designed to minimize subjectivity and ensure consistency across examiners and administrations.

### Scope

Establishes scoring requirements for all psychomotor examinations.

### Definitions

Not applicable

### Policy

Responses on psychomotor examinations are scored based on criteria established by the National Registry. Procedures for scoring and ensuring scoring accuracy are developed and followed.

### Rationale

Accurate scoring is central for supporting reliable pass/fail decisions.
