

Policy Name	Score Reporting: Psychomotor Examinations
Policy Number	63.04
Approval Required By	Board of Directors
Version Number	01
Version Effective Date	TBD

Intent

Provide confidential and timely examination results reporting to candidates.

Scope

Establishes score reporting requirements for all psychomotor examinations.

Definitions

Not applicable

Policy

Candidates are provided with an unofficial pass/fail result for each of the skills and the overall outcome of that testing attempt on the date of examination administration.

Official results are provided via a password protected web site within 3-8 days following National Registry receipt of examination results.

Examination result reports provided to failing candidates include at least the following:

- Information on overall examination performance (pass/fail)
- Information about performance in relation to the passing standard
- Information on performance (pass/fail) for each skill
- An explanation of the type of results reported, appropriate uses and potential misuses of the information provided

Rationale

Candidates should receive examination results that provide meaningful information regarding overall examination performance, explanations of the types of scores reported, and appropriate uses and potential misuses of examination result information.
